To whom it may concern

March 2018

Ref.: ZDHC MRSL 1.1 2015

ZDHC MRSL Compliant Product List: Towards Zero Discharge of Hazardous Chemicals DyStar Products complying with the ZDHC MRSL 1.1 2015 published in December 2015

DyStar® has always been committed to the highest standards of product safety and through its econfidence® program is actively supporting the objective of removing hazardous chemicals from the textile and clothing supply chain.

Chapter 1 of the ZDHC Manufacturing Restricted Substance List (MRSL) addresses hazardous substances potentially used and discharged into the environment during manufacturing of textiles and clothing and related processes. It is not limited to those substances that could be present in the finished products.

Based on its econfidence program DyStar has compiled a list of globally marketed textile dyes and auxiliaries that are qualified to support the objective of the Joint Roadmap: Towards Zero Discharge of Hazardous Chemicals.

None of the listed DyStar products use as intentional ingredients any of the chemical substances or substance groups subject to a usage ban as per chapter 1 of the ZDHC MRSL 1.1 2015:

- Alkylphenols (AP) and Alkylphenol Ethoxylates (APEO)
- Chlorobenzenes & Chlorotoluenes
- Chlorophenols
- Dyes – (Azo (Forming Restricted Amines)*)
- Dyes – (Navy Blue Colorant)
- Dyes – (Carcinogenic or Equivalent Concern)
- Dyes – (Disperse (Sensitizing))
- Brominated and chlorinated flame retardants (incl. SCCPs)
- Glycols
- Chlorinated solvents
- Organotin compounds
- Polycyclic aromatic hydrocarbons (PAHs)
- Perfluorinated and Polyfluorinated Chemicals (PFCs)
- Phthalates (including all other esters of ortho-phthalic acid)
- Total Heavy Metals (arsenic, cadmium, mercury, lead, chromium (VI))
- Volatile organic compounds (VOC)

** azo dyes that can undergo reductive cleavage of the azo bond(s) to release carcinogenic amines as defined in Annex XVII of REACH or 2,4- and 2,6-xylydine*

In accordance to our econfidence program all products as listed hereunder are assessed for a possible risk of contamination (induced by e.g. by-products in synthesis or by raw materials) and –where appropriate- monitoring routines are in place to guarantee that thresholds as given for Group B: Chemical Supplier Formulation Limit in the MRSL will not be exceeded.

We trust that this information will be of assistance to all our partners in the textile and clothing supply chain.

With best regards
DyStar Colours Distribution GmbH

Dr. Anette Weber
Technology
Global Product Safety & Ecology

Dr. Christine Lorkowski

Auxiliaries

- Pretreatment & Dyeing & Printing Auxiliaries
- Finishing Auxiliaries
- Laundry Auxiliaries

Sera[®]
 Evo[®]
 Lava[®]

DyStar products as per your *eliot* selection from **21.11.2018**

Postive List - ZDHC

DyStar Products complying with the ZDHC MRSL 1.1 2015 published

Dyestuff	Remarks	General remarks	ZDHC approved
Lava® Zyme Lite Neu 50			●

- Green Suitable without limitation according to ZDHC RSL for apparel
- » Amber Suitable with certain limitations indicated by Footnotes in the table
- × Red NOT recommended

DyStar products as per your *eliot* selection from **21.11.2018**

Footnotes, Postive List - ZDHC

DyStar Products complying with the ZDHC MRSL 1.1 2015 published

Committed to Sustainability

At DyStar, our products and services help customers worldwide reduce costs, shorten lead times and meet stringent quality and ecological specifications.

Astrazon, Cassulfon, Dianix, DyStar, econfidence, eliot, Evo, Imperon, Indanthren, Isolan, Jettex, Lava, Naphtol AS, Optidye, Phtalogen, Procion, Realan, Remazol, Sera, Sirius, Supranol, Telon are registered trademarks of DyStar Colours Distribution GmbH, Germany.

Information and our technical advice - whether verbal, in writing or by way of trials - are given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility. Our products are sold in accordance with our General Conditions of Sale and Delivery.
