are adequate for applying on fabrics that must obtain the **STANDARD 100 by OEKO-TEX** certificate, product classes I, II, III and IV, provided that the appropriate application and consideration of technical data sheet and recommendations are followed.

Since above mentioned standard is not applicable to chemical products, auxiliaries and dyestuffs, but to textile articles and products, we give this declaration as guidance and without responsibility from our part.

This certificate is only valid for the **STANDARD 100 by OEKO-TEX – Edition 01.2019**. In case of a new edition of this standard, the certificate must be renewed under your request.
