DyStar Declaration of Conformance

This is to confirm that the DyStar products listed hereunder – if supplied after January 1, 2017 – qualify for the dyeing and finishing of textiles in compliance with the requirements set in the

- **H&M Group Chemical Restrictions 2019, Restricted Substances List (RSL), January 2019, Version 1 (including Amendment 2019:1)**
- **H&M Group Chemical Restrictions 2018, Manufacturing Restricted Substances List (MRSL), January 2018**

provided that they are properly applied according to the state of the art and our technical recommendations.

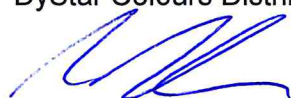

This declaration refers strictly to the H&M requirements. Our H&M compliance guarantee does not automatically cover retailer standards or Restricted Substances Lists of other organisations, which may have other limit values or test methods.

This declaration does not absolve the user from making their own tests and controls to ensure that the finished textile article conforms to the requirements of H&M.

All products are supplied subject to DyStar's standard Terms and Conditions of Sale.

With best regards,

DyStar Colours Distribution GmbH
