C&A
Chemical Policy (RSL & MRSL)
(01 January 2018)

According to our present knowledge and your request, we declare that product we usually supply you, till today's date, as follows:

- NOVOCRYL S/TP NEW

should be adequate for applying on fabrics that must obtain C&A certificate, only if our advice and correct application are followed.

Suitable for textile products intended for adults.

Applying to the fabric a maximum concentration of 300 g/l, traces of Formaldehyde less than 75 ppm should be detected.

Product application must be realized by instructions established by Techna Italia srl - OFFICINA +39 Division.
As this standard is not applicable to chemical products, auxiliaries and dyestuffs, but to articles and textile and leather products, we give you this declaration as indicative and without any responsibility from us.

This certificate is valid only for "C&A Chemical Policy (RSL & MRSL)" (dated 01 January 2018).
In case of new edition of this standard, certificate will be renewed by your request.

Signed
Andrea Venier
General Manager
