COMPLIANCE WITH “BENETTON GROUP SRL RESTRICTED SUBSTANCES LIST – SEPTEMBER 2017”

All the products supplied by KEMIN TEXTILES must be used only for the treatment of fabrics, so, the restricted substances and the limits that have been considered to issue the present declaration, are the ones referred to treated textiles articles.

- MRSL

We confirm that the following products for textile applications:

DEMIX ND50
FST RW
LEGAFLEX ZERO

don't contain, as intentional components in the formulation, any of the forbidden substances listed in the table reported at the chapter named MRSL of “BENETTON GROUP SRL RESTRICTED SUBSTANCES LIST – SEPTEMBER 2017” chemical restrictions.

- RSL

We confirm that the following products for textile applications:

FST RW
LEGAFLEX ZERO

don't contain, as intentional components in the formulation, any of the forbidden substances listed in the table reported at the chapter named PRSL of “BENETTON GROUP SRL RESTRICTED SUBSTANCES LIST – SEPTEMBER 2017” chemical restrictions.

We confirm that the following product for textile applications:

DEMIX ND50

contains traces of 1,2-Benzisothiazolin-3-one, that is a biocide. The family of “Biocides” is listed in the table at the chapter named PRSL of “BENETTON GROUP SRL RESTRICTED SUBSTANCES LIST – SEPTEMBER 2017” chemical restrictions.

The presence of such biocidal substance is due to the need to avoid mold formation during the storage. Nevertheless, the product mustn't be used with a biocidal purpose, but only as finishing agent for textile garments treatment.

This declaration is valid until April 25, 2019.

We are available for any further information.

Best regards.

KEMIN TEXTILES srl
