Dear Sirs,

APLICACION Y SUMINISTROS TEXTILES SA (from now cited as ASUTEX) declares that all material safety data sheet and labels of ASUTEX products are been carried out in accordance with CLP Regulation (EC) nº 1272/2008 (entered into force on 20 January 2009). We declare that Safety Data Sheet (SDS) of ASUTEX products have the structure and content as specified in Article 31 of REACH Regulation (EC) No 1907/2006.

According to Article 31 of REACH (as amended by Articles 58 (2)(a) and 59 (2)(a) of CLP) the criteria for when an SDS must be provided (even without request) are:

- (a) where a substance or mixture meets the criteria for classification as hazardous in accordance with Regulation (EC) No 1272/2008; or
- (b) where a substance is persistent, bio accumulative and toxic or very persistent and very bio accumulative in accordance with the criteria set out in Annex XIII; or
- (c) where a substance is included in the list established in accordance with Article 59(1) for reasons other than those referred to in points (a) and (b). (where the latter list corresponds to the so called “candidate list” for authorization)
http://echa.europa.eu/chem_data/authorisation_process/candidate_list_en.asp

The products that are not included in one of the previous options are not obliged to have safety data sheet. So, in accordance with current legislation it is no mandatory to inform about CAS number of non hazardous substances included in a product. Even so, ASUTEX hand-out SDS for all type of products. When a product doesn't contain any hazardous substance in its composition it is set in section 2 (according to CLP) and in section 3 (according to REACH).

ASUTEX cannot reveal concentration and CAS numbers of substances included in the products supplied to our customers because each CAS number designates only one chemical substance, so if we give this information ASUTEX will be disclosing industrial secrets.

ASUTEX is committed to provide the best information to our customers, that is the reason why we have SDS for all the products we trade (even non-hazardous). The last edition of every SDS of ASUTEX products can be downloaded from website <https://asutex.sdsarea.com/> previous registry of the user (ASUTEX customer).

Signed:

ASUTEX
