Oeko-Tex Standard 100

12 August - 2017

The products are dyeing auxiliaries. The use of the Shuncheer Products listed below does not intentionally introduce any substances onto the treated textile that could be subsequently released in amounts above the limits specified in

Oeko-Tex Standard 100 (APPENDIX-6) if used strictly under the recommended conditions and concentrations defined in the relevant product specific safety data sheet (SDS) and technical data sheet (TDS). This declaration does not absolve the user of SHUNTEX, SHUNSOL, SHUNSOFT, products from undertaking their own testing and instituting of controls to ensure that the finished textile articles conform to the requirements of the specified standards. Under various environmental protection and product safety regulations, directives, standards and initiatives “intentionally introduced” means “deliberately utilized during the manufacture of the components and/or for the formulation of a material or component where its continued presence is desired in the final product to provide a specific property, appearance or quality.” The substances listed in the Oeko-Tex Standard 100 are not intentionally introduced as additives in the specified products. These substances may only be present as adventitious trace impurities (not intentionally added to the products) in amounts not exceeding allowable concentrations as provided in the above-referenced standard. Targeted testing for chemical impurities is systematically carried out on raw materials and finished products as an integral part of our global Quality Management process. Please consult the relevant SDSs, TDSs and Certificate(s) of Analysis (CoA), if Applicable. This Statement is valid from August 12, 2017, Until 11 August 2018, or such time as changes in the standard or our products indicate that textile articles treated with the products would no longer conform to the specified standards. Please do not hesitate to contact your Shuncheer representative, if you have any further questions.

Yours sincerely,

SHUN CHEER ENTERPRISE CORPORATION
